The Free Press of February 10th note the arrival there of Messrs. W. M. Haley and J. T. Blowey of Vancouver who visited Edmonton recently.

No service in Presbyterian church Sunday morning owing to the absence of the pastor in Calgary. Mr. Arnot will conduct the evening service at the usual hour.

Mrs. Jas. Carnegie of Latham, Assiniboia, arrived on Monday's train to attend the funeral of her father, the late Mortimer Cummings, which took place on Tuesday.

THE most brilliant and successful of the Edmonton winter assemblies was held in Robertson's hall on Friday evening last. There will be another assembly after lent.

The contract for the new \$40,000 post office at Calgary has been let to Major Stewart of Ottawa. Major Stewart is a brother-in-law of Alex. Taylor, postmaster at Edmonton.

Reports from Saskatoon say it was blowing and drifting hard last night, and no word has been received from the blockaded train yet. Wires between Saskatoon and Regina are still down.

In a recent debate in parliament on the petroleum duty Moncrieff, defending the duty, said that the oil belt through which the Athabasca river runs embraced an area larger than all the other oil producing regions of the world put together.

THE train which left Regina for Prince Albert on Saturday last reached Bonington station about 50 miles from Saskatoon, in which vicinity the train which left Prince Albert on January 30th is still stuck. Neither trains had reached either Regina or Saskatoon last night. The wires were up for a short time on Monday, between Bonington and Regina but they are down again.

An Indian boy of about thirteen years accidentally shot himself last week, in his father's tepee at Red Deer. He took the cap off a muzzle loading gun which was in the tent and to find out whether or not the gun was loaded placed the butt on the ground—as it happened either in or near the fire—and blew down the barrel—with the usual result. The top of his head was blown completely off. The remains were taken charge of by the police and were sent to Bears' hill reserve for burial.

THE funeral of the late Mortimer Cummings of Sturgeon river settlement took place on Tuesday afternoon last to the Edmonton cemetery. Rev. C. A. Proumier conducted the religious services. The attendance was very large. The deceased came to Edmonton three years ago from the vicinity of Medicine Hat and began farming in the Sturgeon settlement. At the time of his death he was president of the Sturgeon river branch of the patrons of industry, who took charge of the funeral. He leaves a wife and five children, one married daughter, three married sons and one son unmarried. He came to the Northwest from the county of Prescott, Ontario, where he was well known.

RITCHIE & Co's mill, South Edmonton, will probably begin grinding on Monday next. The present capacity of the mill is 75 barrels per 24 hours but it can be increased to 200 barrels.

At the town council meeting last night, tenders for the running of the upper ferry were received as follows: John Walter \$200, D. C. Robertson \$165, E. Williams \$250, W. Humberstone \$100. Goodridge and Sanderson moved that W. Humberstone's tender be accepted owing to W. Humberstone's statement that if he did not receive the tender for the upper ferry he would withdraw his tender for the lower one and taking into consideration the fact that Mr. Humberstone's tender for the two ferries amounted to more than any other two tenders together. Carried. The fire water and light committee reported six street lights short. Several small accounts were passed. Full report next issue.

COMPLAINT is made that the mail which reaches Calgary on Sunday and Wednesday nights is seldom brought through to Edmonton on Monday's and Thursday's train, particularly if the main line train is late. This throws correspondence three and four days late respectively, which is a serious matter when all correspondence can only be answered three days after arrival. The importance of the Edmonton mail is such as to warrant the placing of an Edmonton mail bag on the main line train so that if the trains made connections the mail would also. Certainly the railway mail clerks have as much time to sort the Edmonton mail on the trip from Moosomin to Calgary as the Calgary clerks have in the few hours intervening between the arrival of the east and the departure of the north trains.

A. H. MARTIN, taxidermist, has mounted a ptarmigan or Arctic partridge, which was brought from Whitefish lake. The bird is of the same size and build as an ordinary partridge, but the feathers are pure white, except a part of the tail feathers, the points of which are black. He has also a large eagle received from Beaver lake, the property of C. D. T. Beecher. The eagle is mounted with wings outspread. He has also a very large and handsome horned owl, the property of S. Larue. Also the head of a black tailed deer, with splendid antlers, the property of Mr. Shaw of Walker's flat. Mr. Martin, who has a taste for natural history, says that he is astonished at the varieties of winter birds found in this region, such he would not expect to see nearly so far north. Last week a pair of wax wings and a gross beak were brought to be mounted. Both are singing birds and were very fat. The wax wing is of a sort of drab color, with a tuft on the head. There is a little yellow on the wings, but the peculiarity of the bird is that when the wings are spread out three blood red tips show about the middle of each. The gross beak is of yellow and black, a little larger than a canary, and derives its name from its very large stumpy beak.

D. MACRAE came down from the Big Arch coal seam some seventy miles up the river this week bringing a small sample of the coal with him. This coal is much harder and closer grained than the Edmonton coal and has not the same tendency to check on exposure to the weather, although apparently it is put together in smaller sections than the Edmonton coal. Mr. Macrae describes the arch as being situated on the south side of the Saskatchewan at the foot of a cut bank. From foot to foot of the arch at the water's edge is about 300 feet and the centre or keystone is about ten feet above the water. Three large seams of coal are above the other showing in the face of the clay bank in the shape mentioned gave the appearance of an arch. Each seam is about 16 feet thick and about two feet of clay lies between each two seams. The coal is black, bright and hard right on the surface, apparently being very little affected by the action of the weather. This is not by any means, however, the greatest showing of coal on the river. A seam a few miles further up is between sixty and eighty feet thick. Mr. Macrae says that a number of the coal seams on the river are on fire, one being at the Stony Rapids, about 40 miles up the river, three in the vicinity of the Big Arch and one some distance above. One of the fires near the big arch gives out no smoke and only a little steam, which smells strongly not of burning coal but of burning pitch.

NEW ADVERTISEMENTS.

THE Edmonton Brass band tender their sincere thanks to those who assisted them so efficiently in the concert of Tuesday evening last; and particularly to Miss Charbonneau, Mrs. St. Jean, Dr. McInnis, H. Anthony, F. D. Fortin, Geo. Purches, Ernest Morin and J. Bilodeau. J. G. FAIRBANKS, President.

BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past, would invite their inspection of my work and prices in the future. Do not be deceived by parties who claim to make a pressed brick with a sand & stick machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern States for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders. W. HUMBERSTONE.

EDMONTON BULLETIN, FEBRUARY 16, 1893.

THE EDMONTON DISTRICT.

A party of Michigan delegates who visited Edmonton last summer have published a letter in the Free Press giving their impressions of their trip. The following is the part relating to the Edmonton district:

On Monday, August the 2nd, we took the Edmonton & Calgary railroad for Edmonton. We found the appearance of the country improved as we travelled north; 50 miles from Calgary all the growth commenced to be very luxuriant, the grass being especially good. We found that many settlers were already in the country, and every station filled with anxious land hunters. At Edmonton and points south and east of it settlers can procure at the stores all requirements at a fair price. There are two coal mines at Edmonton. Coal is sold at \$2.40 or \$2.75 per ton, delivered. Gold is being procured by many placer miners on the sand bars of the North Saskatchewan. We were informed that each man averaged from \$2 to \$3 per day. They are testing for oil west of Edmonton, with fair prospects of success. The game through the country is very plentiful. We saw a great many flocks of prairie chickens, ducks and geese, and in our opinion it is the sportsman's paradise. The shooting season for prairie chicken commences on August 15, and ducks, geese, etc., on September 1st. It would be difficult to conceive more favorable conditions for settlement than are to be met with in the country we traversed. Good soil, water and timber, hay and coal, easily and cheaply mined on the Saskatchewan river. It seems to crop out everywhere. The opinion of the delegates as regards the opportunities of the Northwest for settlement would be thus: That whilst the entire country seems well adapted for stock raising, the district around Edmonton, so far as we saw, was beyond our expectation suitable for mixed farming. Wheat was especially good, also oats and barley, and as eastern farmers we would say of the timothy grass, it was as fine as can be produced in any country and we believe it can be raised with profit to the farmer as the country becomes more improved by settlers, from our observation. In going east about thirty-six or forty miles vegetation was growing nicely and looking well; in our opinion it is to be the future country of the Northwest. We can say from evidence within our knowledge that any man who will endeavor to make a home can do so in this district. It certainly has the best depth of soil. In this country hay is abundant and all kinds of the small wild fruits such as strawberries, gooseberries, wild currants and wild blackberries abound.

The Edmonton district surpassed our expectations, we found a country that is well adapted for mixed farming, with an inexhaustible black loamy soil, well watered and well timbered. The conditions in that respect would compare favorably to the state of Illinois; wheat, oats, barley and hay will grow in abundance. We saw timothy and potatoes as good as ever we saw in the east, and we see no reason why any person in the east who is burdened with taxes and interest should not go at once and make a home in the beautiful Northwest if he can. There he has a good healthy climate, no taxes to speak of, good land, no mortgages, no interest, and where, with a little energy and perseverance, he could make himself a comfortable and happy home.

The soil is from one and one-half to three feet deep, a rich black loam similar to the soil of Michigan river flats only heavier, and rests upon a clay subsoil which is in itself most black and rich. The climate is mild, many farmers telling us that horses get a good living running out all winter, and that last season there was very little or no sleighing there being no snow. It was the same the winter before and we believe is generally so. The crops of wheat were fine and stand very even about as high as the fence tops, about four and a half to five feet, and indicating a yield of 25 to 30 bushels per acre. They will be ready to harvest about August 20. Oats were heavy and good; we would think them good for 60 to 70 bushels and we were told of exceptional yields of 100 bushels per acre. Barley, the largest we ever saw, and much larger and more plentiful than is ever raised in any part of Michigan. Potatoes and a variety of garden vegetables are grown most successfully, there being no potato bugs, cabbage worms or any vegetable or grain pest.

The famous trotting dog "Doc" lost his life in the wreck on the Pennsylvania railway on Tuesday. He had been shown at many state and county fairs and was valued at \$3,000.

Regina Standard: Wheat on the market is standing still at 52 cents. The condition of the roads has made the receipts somewhat light during the past few days.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

LADIES' MEN'S AND CHILDREN'S DEPARTMENTS HOUSE FURNISHINGS, &c., &c.

Will be found a splendid assortment of goods which cannot fail to please, and at prices that must draw crowds of purchasers.

J. A. McDOUGALL.

BAND CONCERT.

The concert given on Monday evening last by the Edmonton brass band and assisting friends was the most successful affair of the kind ever seen in Edmonton in musical excellence, good management, attendance and public appreciation. Robertson's hall was packed at the hour for opening. Over 400 people were present, and all were delighted. The following is the programme: Overture, "Athalie," Orchestra; Comic opera, "Box and Cox," "Box" A. Prince, "Cor" H. Anthony, "Bouncer" F. D. Fortin, Dr. McInnis, accompanist; "Lesperance," Orchestra; Chorus, of twelve voices, "Enfants de Bagnera," soloist, J. Bilodeau; Duet, "Clarinet and piano," R. Duplessis and Miss E. Charbonneau; Song, "Canada," Ernest Morin, encore; Quickstep, Promenade, band, encore, quickstep, Brighton, March, "Dorner," orchestra; Comic opera, "Les deux Aveugles," "Giraffier" A. Prince, "Patachon" J. Bilodeau; violin solo, with piano accompaniment, fantasia from "Crottiati," violin Geo. Purches, piano Miss E. Charbonneau; encore. Song, "Le Printemps," Mrs. E. St. Jean; encore, "My Love and I," Waltz, "Spirit of Love," orchestra; Quickstep "Villageois," band; encore; duet, "Canary polka," Piccolo and piano, Frank Kiel, Miss E. Charbonneau; Il Trovatore, "A che la Morte," Mrs. E. St. Jean, J. Bilodeau; "Marsellaise," "Bonny Blue Flag," and "God Save the Queen," band. Where all the performers were so good, to particularize would be misleading, but it may not be out of place to say that a very great share of the success of the entertainment was due to Miss Charbonneau's piano accompaniments, the talent and energy of Mr. Morel, leader of the band, and the able direction of J. G. Fairbanks, president of the band.

Free Press: Word of the first casualty, the result of the recent storm, has reached Winnipeg. Passengers on the Atlantic express which arrived at four o'clock Monday morning, brought in the information. The victim was a brakeman named Patrick Wardie, in the employ of the C. P. R. and had an invalid wife and three children living in Toronto or Montreal. The express which reached there this morning was snowed up at Sidewood, a siding about sixty miles west of Swift Current, and a relief train was sent out from the latter place to its assistance. When about nine miles out, the relief train became stalled and the conductor offered \$5 to any person who would go back to Swift Current with the information. It was bitterly cold, thermometer registering over forty degrees below zero, notwithstanding this, poor Wardie offered to go, and set out never to reach the town alive. He had covered eight miles of the distance and was within one mile of the station when he came completely exhausted and sank to the ground. An Indian saw him fall and went to his assistance, but could not help him as Wardie was completely worn out and could hardly stir a limb. The Indian at once set out for the station on a run and an engine was sent back immediately, but before it reached the place where the poor fellow lay, life was extinct.

C. A. Magrath, M. L. A., for Lehighbridge has a long letter in the Lethbridge News on the separate school question. Mr. Magrath thinks that the claim for religious instruction in schools is good. He also thinks that the separation of children in different schools for the purpose of imparting that instruction is an evil, and gives strong instances of the evil. As he believes that the evil overbalances the good he favors national as against separate schools. He asks if it would be practicable to allow religious denominations to give religious instruction to children in their own buildings for a limited number of hours on week days, as a substitute for the religious instruction given in separate schools.

The estimates brought down by the minister of finance include the following: Regina court house, land and registry office, \$20,000. Calgary post office, \$7,000. Calgary public building, \$25,000. Edmonton registry office, \$1,200. Lehighbridge custom house, \$7,000. Prince Albert land office, \$2,000. Northwest mounted police buildings, \$29,000. Northwest harbors, rivers and bridges, \$5,000. Vote for the Northwest government \$275,150, an increase of \$96,000. Indians of Manitoba and the Northwest, \$777,271, a decrease of \$18,000. Mounted police \$625,000, decrease, \$50,000.

The Chicago Tribune has compiled the statistics of murder and suicide for 1892 in the United States. It finds that there are no less than 6795 murders in the entire country as against 5906 in 1891, 4290 in 1890, and 3567 in 1889. With the growth in population it might be natural to expect a growth in all classes of crime, but the doubling of the number of murders in three years is not to be explained on this ground. The statistics of suicide are perhaps as startling. The total during 1892 was 3860 against 3331 in 1891.

President Van Horne, R. B. Angus, James Burnett, E. B. Osler, R. H. Bethune, M. C. Hammond and Thomas Skinner are asking for incorporation under a Dominion act and for power to take over the property of the Canada Northwest Land company, the organization which under the presidency of Lord Elphinstone relived the railway company of a large quantity of its land. That company was incorporated under Imperial authority and has been a source of any amount of speculation. The capital is fixed at \$7,443,875.

While driving to her home a few miles out of Calgary on Friday night, February 3rd, Miss Louise Henry dropped her glove, and getting out of her rig to recover it the horse ran away. Fortunately the buffalo robe fell out also. Miss Henry was unable to find her way home until morning, and spent fourteen hours on the prairie with the thermometer 50 below zero. Though confined to bed she is recovering rapidly.

Medicine Hat Times: It is rumored in town that Judge Macleod has been offered his choice of the lieutenant-governorship of the Territories or the commissioner of the mounted police. The same rumor says he prefers the latter.

Moosomin Spectator: Three deaths in a household in one day in the terrible fact that has to be recorded this week. The daughter of Mr. Glendening, who lives on the outskirts of the town, and his two grandchildren died on Saturday before medical aid reached them. The cause of death is said to have been lack of medical attention and proper nourishment during their sickness.

John Baumgarten, one of the early settlers of British Columbia, is reported to have committed suicide by walking into the Fraser river at Big Bar. Deceased was a hard working miner. He was at one time reputed to be worth a great deal of money, but loose speculations of recent years reduced him again to the pick. He has no known relatives in the country.

An Ottawa despatch of February 9th says: The Manitoba and Northwest members met in caucus to-day. Tariff matters were discussed. The opinion was reached that the duty on binder twine was indefensible, owing to the altered circumstances, and adhesion was given to the movement for a relaxation of duties on agricultural implements and coal oil.

John Lineham, M. L. A., of Calgary, intends to spend several weeks in California. He will return home by the isthmus of Panama and New York. Mr. J. I. Sprenger, of High River, accompanies him to San Francisco, but from that city he will go through Mexico and over to Europe, where he intends staying for a couple of months.

Medicine Hat Times: A band of 150 antelope were observed on Sunday afternoon quietly grazing within a stone's throw of the town limits, evidently aware of the protection the law now affords them.

The Regina Standard says it is reported that John A. Kerr, of that town has been appointed immigration agent to Ireland. This a good appointment to a most desirable, and probably a very workable, field.

McCarthy has given notice of a bill to amend the Northwest Territories Act, authorizing the assembly to abolish French as the official language and also to abolish separate schools.

The Moosomin Spectator came out only half size on February 9th, owing to a fuel famine, which was general along the C. P. R. line during the recent cold snap.

British Columbia merchants are about to put a 20 per cent discount on American silver.
